

21. A framed art comprising:
- (A) an art frame having
 - (a) a standard internal size, and
 - (b) a plurality of cam assembly based holders, and
 - (B) an art sheet having an overall size substantially same as said standard internal size of said art frame.
22. The framed art of Claim 21 in which each said cam assembly based holder includes
- (a) a stationary holder base,
 - (b) a rotatable holder plate, and
 - (c) a cam assembly engaged with said stationary holder base and said rotatable holder plate for holding said art sheet in said art frame.
23. The framed art of claim 22 in which said cam assembly includes a plunger and a compression spring.
24. The framed art of Claim 21 also comprising
- (C) a mat board having an overall size substantially same as said standard internal size of said art frame.
25. A picture frame for displaying a back folded calendar book through a mat board, comprising spring loaded holding means for
- (A) mounting said mat board in said picture frame, and
 - (B) holding said back folded calendar book in suspension for displaying said calendar book through said mat board.
26. The picture frame of Claim 25 in which said spring loaded holding means includes
- (a) a stationary holder base,
 - (b) a rotatable holder plate, and
 - (c) a cam assembly engaged with said stationary holder base and said rotatable holder plate for holding said art sheet in said art frame.
27. The picture frame of Claim 26 in which said spring loaded holding means also includes four spring loaded holders, each having one said stationary holder base, one said rotatable plate, and one said cam assembly.

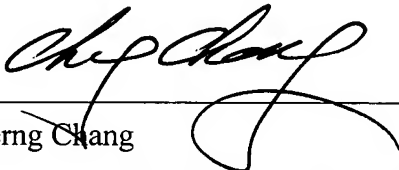

28. The picture frame of Claim 25 in which said spring loaded holding means includes a compression leaf spring.
